Pike County Information and Referral System

Every hour of every day, someone needs to find essential services like food, shelter, substance abuse assistance, etc. People often don't know where to turn when faced with many different agencies, organizations and programs. In many cases, people end up going without these necessary and readily available services because they do not know where to start. The goal of an Information and Referral (I & R) system is to connect people to the services they need.

In 1999, the Pike County Visioning Taskforce first recommended a county-wide and centralized I & R system. The Pike County Interagency Council, Pike County Chamber of Commerce and others confirmed this need, but lacked the resources to address the issue. In 2002, the United Way of Pike County hosted a community meeting with various agencies and subsequently formed the Pike County Information and Referral System Taskforce. The United Way of Pike County provided the funding to the taskforce because an I & R system is a critical part of a human services network. The taskforce subsequently became a standing committee and then program of the United Way of Pike County.

The mission of the Pike County Information and Referral System program is to develop a county-wide and comprehensive I & R System. The implementation of the system is limited to the available funding. The first priority was to develop a centralized on-line database of human services, www.PikePaHelp.org, since this serves as a foundation for the I & R System. The on-line database was launched in August of 2003. Phone support is also available during office hours at the United Way of Pike County.

Please contact the United Way of Pike County for more information.

Community Services Directory

This directory is a printed version of the on-line database, PikePaHelp.org, and is provided free of charge to county schools, libraries, many churches, selected county and government agencies and all county, township and borough administrative offices. The printed directory is also posted as a PDF file on the United Way of Pike County website at www.unitedwaypike.org for anyone to download and print.

This directory is for general information purposes only and the agency information was extracted from the on-line database in May 2008. All information was provided by the listed organization or from their published materials. All organizations were contacted by mail, email and/or FAX in an attempt to verify the listed information. Inquiries concerning the listed information should be directed to that organization. Other inquiries should be directed to:

DESCRIPTION OF SERVICES:

Alcoholics Anonymous is an international support system comprised of men and women who have had a problem with alcohol. Their primary goal is to help people achieve sobriety and stay sober. People share their experiences, strength and hope with each other that they may solve their common problem and help others recover from alcohol. Together, people can do what none of us could accomplish alone. Alcoholics Anonymous can serve as a source of personal experience and be an ongoing support system for recovering alcoholics. It is nonprofessional, self-supporting, non-denominational, multiracial, non-political, and available almost everywhere. There are no age or educational requirements. A desire to stop drinking is all that is required.

DESCRIPTION OF SERVICES:

America's most isolated and at-risk children are the estimated 7.3 million children who have one or both parents under some form of state or federal supervision. Without effective intervention, 70 percent of these children will likely follow their parent's path into jail or prison.

Womens Empowerment League has partnered with the Amachi mentoring program, which was developed to provide at-risk children with a different positive path - by establishing the consistent presence of loving, caring people of faith.

Amachi mentors meet weekly with a child who has been carefully matched with them; they often live and worship in the same neighborhoods as the children. Amachi's hope is that one-to-one mentoring by caring adults will significantly improve the life opportunities of the children. Studies have clearly demonstrated that the Big Brother Big Sister (BBBS) mentoring model has positive effects - and now through Amachi, the strengths of mentoring and congregational volunteers are brought together.

DESCRIPTION OF SERVICES:

The American Red Cross is a humanitarian organization, led by volunteers, that provides relief to victims of disasters and helps people prevent, prepare for, and respond to emergencies. It does this through services that are consistent with its congressional charter and the principles of the International Red Cross and Red Crescent Movement.

The Monroe County Chapter follows this mission in its work for the communities of Monroe County, as well as the Townships of Porter and Lehman in the neighboring county of Pike. Monroe County is a resort county whose population fluctuates with the seasonal attractions of the Poconos. Our Chapter was chartered on May 16, 1917 as a result of World War I. The Chapter has remained active since then, growing and working tirelessly to meet the ever-changing needs of our residents.

One of the most satisfying aspects of working in the American Red Cross is being part of a long-established and highly respected organization with worldwide affiliations. Respect for the Red Cross is based on the uniformly high standards of performance and service that are established by the organization. Every local chapter benefits from this respect and has, at the same time, the freedom to manage its own affairs in accordance with national policies and regulations.

Children are constantly learning, right from birth. Their early years are the foundation for growth and development, and what they learn during those years depends on the experiences they have each and every day. This is our greatest challenge as caregivers, as well as our greatest opportunity.

How can parents, grandparents and caregivers support learning? Since children learn in a variety of ways and styles, to achieve developmental milestones the relationship with parents and primary caregivers is essential. It's a connection that allows for optimum learning.

Everyday life is a learning experience for children. Born Learning is a public engagement campaign that helps parents, grandparents and caregivers explore ways to turn everyday moments into fun learning opportunities.

DESCRIPTION OF SERVICES:

For more than 30 years, the Center for Developmental Disabilities (CDD) of Pike County, LTD. has provided educational, therapeutic and family support services for children with developmental delays and disabilities from birth to kindergarten age. Our grass roots response began with one woman, a nurse, who visited families and helped them access information and services. This support was informal and often based on word of mouth, from family to family.

As our program has evolved we have expanded our program to serve all children eligible for pre-kindergarten services through a variety of programs and as a fee for service program.

It is our goal to maximize every child's potential. We believe every child deserves the opportunity for growth and development in a setting that meets their individual needs and concerns. We are committed to supporting children and their families by providing programs and services that are developmentally and appropriate and individualized for each child. CDD does not reject or eject a child for behavioral issues.

Occupational and physical therapy, speech services and behavioral consultations are integrated into the classroom program to support the achievement of developmental and learning outcomes for children with and without disabilities.

Our family support services work closely with parent and caregivers of children to ensure positive parent-child relationships. Additionally, family support services provide education and information regarding additional community services and facilitate a family's access to those community services.

CDD is a licensed Early Care and Education Center by the Department of Public Welfare as a Specialized Day Care Center. CDD is a Pennsylvania STARS Three Early Care and Education site. STARS is a commonwealth of Pennsylvania initiative recognizing Early Care and Education programs that exceed licensing requirements in programming, health and safety practices. Currently CDD is the only STARS Three early care and education site in Pike County.

Grief support after the death of a child.

The mission of The Compassionate Friends is to assist families toward the positive resolution of grief following the death of a child of any age, from any cause, and to provide information to help others be supportive.

The Compassionate Friends is a national nonprofit, self-help support organization that offers friendship, understanding, and hope to bereaved parents, grandparents, and siblings. There is no religious affiliation, and there are no membership dues or fees.

The secret of TCF's success is simple: As seasoned grievers reach out to the newly bereaved, energy that has been directed inward begins to flow outward and both are helped to heal. The vision of The Compassionate Friends is that everyone who needs us will find us and everyone who finds us will be helped.

DESCRIPTION OF SERVICES:

The Delaware Highlands Conservancy is dedicated to conserve the natural and cultural heritage of the Upper Delaware River region.

We serve Pike and Wayne counties in PA as well as Sullivan and Delaware counties in NY -- the Delaware Highlands.

We use a number of conservation tools, including a land preservation agreement also called a Conservation Easement. Under the terms of a land preservation agreement, the landowner continues to own the land but puts restrictions on the property that ensures all future owners are bound by the same stewardship goals the current owner advocates. The restrictions are based on the owners' requirements and desires but usually restrict future subdivision and development of the property. Although there is a financial incentive, landowners partner with us to ensure the land they love -- with its scenic vistas, beautiful forests, pristine waters, and productive farms - remains for future generations.

We also run a variety of educational events providing stewardship tools and information. We maintain a small nature center, the Butterfly Barn, so children and adults can learn about the plants and wildlife native to this region and how to care for their terrestrial and aquatic habitats.

Founded in 1994, the Delaware Highlands Conservancy now protects over 10,000 acres across the region, including working farms, wetlands, productive forest land, or other natural properties.

E.A.R.S. is a non-profit organization. With the onset of declining vision, comes the need to re-learn how to do many daily activities. Our goal is to help people maintain their independence with low vision rehabilitation training.

We provide, free of charge, audio-cassette lesson tapes that teach adaptive daily living skills to the vision-impaired and their caregivers. The lessons, modeled after current blind rehabilitation techniques, are a must for anyone coping with loss of eyesight. By listening to E.A.R.S. lesson tapes, you'll hear uncomplicated, straightforward ways to help you do the things made difficult by low vision. Personal grooming, doing the laundry, and dialing the telephone can once again become simple, enjoyable events.

Low vision rehabilitation training is learning practical techniques to overcome the limitations of vision loss. It provides solutions for safely moving about, making the most of available light and contrasting color, and using your sense of touch to replace information your eyes used to provide. It enables you to continue to live independently. By listening to E.A.R.S. audio-taped lessons, you will learn many new ways to successfully continue to do everyday activities when you have reduced vision.

First Book is a national nonprofit organization with a single mission: to give children from low-income families the opportunity to read and own their first new books. The primary goal of First Book is to work with existing literacy programs to distribute new books to children who, for economic reasons, have little or no access to books.

First Book – Wayne/Pike is the First Book Local Advisory Board, which provides literacy programs throughout Wayne and Pike counties with an ongoing supply of new high-quality books. Using materials and eligibility criteria established by First Book, Advisory Board members select existing community tutoring, mentoring, and family literacy programs who serve at-risk children and award them with books to take home and keep.

Advisory Boards raise funds to support the purchase of new books by soliciting donations from individuals, businesses, service organizations, and foundations in their communities. These

donations are often doubled by matching grants that are available through First Book. In addition, First Book's publishing partners help maximize First Book's ability to make grants of new books by offering substantial discounts on their books for Advisory Boards.

DESCRIPTION OF SERVICES:

G.A.I.T. stands for "Genuine Alternative in Therapy" and is a Federal Non-Profit 501(c)(3) Charitable organization. G.A.I.T.'s mission is, "To improve the quality of life of children and adults with special needs resulting in a more independent life in society." G.A.I.T. offers several services--all of them using the horse--to accomplish this mission.

Who Benefits From Our Services?

Children and adults from 2 to 80 years old with disabilities including: Autism, Cerebral Palsy, Mental Retardation, Developmental Delays, Head Trauma, Spina Bifida, Multiple Sclerosis, Attention Deficit Disorder(ADD), Prader Willi Syndrom, Down Syndrom, and others.

Our services include the following:

Therapeutic Riding (TR)

Therapeutic Riding focuses on riders in a group setting to improve balance, posture, trunk control, sensory processing, communication skills, and socialization.

Hippotherapy (HPOT)

Hippotherapy allows licensed, credentialed therapists (Physical Therapists, Occupational Therapists and Speech/Language Pathologists) to use the multi-dimensional movement of the horse to improve neurological function and sensory processing in the rider.

Equine Assisted Learning (EAL)

Equine Assisted Learning is conducted by certified equine professionals. Activities using un-tethered horses offer experiential communication (or better communication skills relating to or resulting from actual experience), teambuilding and self-discovery to groups of people.

Equine Assisted Psychotherapy (EAP)

Equine Assisted Psychotherapy teams a mental health professional with an experienced horse professional to offer therapeutic and experiential sessions to clients.

Vocational Training (VT)

Vocational training opportunities abound at a horse stable and in an office setting. Stall-cleaning, horse feeding, and computer data entry are taught to help them transition to other job sites and work opportunities.

Volunteer Opportunities (VO)

Volunteer opportunities are varied and plentiful at G.A.I.T. to people 12 years old and older. All are trained to work effectively and safely with horses and with people with special needs. You, too, can volunteer. Call us at (570) 409-1140 to ask about our volunteer program for you or your family.

DESCRIPTION OF SERVICES:

LIHEAP is a Federal program that assists low-income individuals who cannot pay their heating bills. Eligible households can receive assistance through a direct payment to vendors who supply their fuel, or through a crisis component during weather-related emergencies, such as a broken furnace, leaking pipes, or terminated utility service. Homeowners, renters (including those whose

rent includes heat), roomers and subsidized housing tenants may be eligible. Any type of fuel may be used.

The program for both cash and crisis components is usually available each heating season from approximately November to April. Besides household income, grants are based on the type of fuel used and the county of residence.

To be eligible for the program, household income can not exceed 150 percent of the Federal Poverty Income Guideline, or for a one-person household, \$15,315; two persons, \$20,535; three persons, \$25,755; four persons, \$30,975; five persons, \$36,195; six persons, \$41,415. For larger households, guidelines increase by \$5,220 for each additional person.

The Marshalls Creek Volunteer Fire Company was founded in 1945. It is a public department and its members are of a volunteer status. We proudly protect more than 25,000 people in a primarily rural area of 220 square miles. We operate from two stations, have a total of 14 pieces of apparatus and 60 active members responding to approximately 1,600 calls per year. Our department offers free services responding to fires, emergency medical services, extrication, and search and rescue.

We are an aggressive, small town department serving Price Township, portions of Smithfield Township, Middle Smithfield Township, and Porter Township in Pike County. In addition, we are a licensed ambulance service that operates as a Quick Response Service (QRS) Unit answering life threatening medical emergency calls. In working with local municipalities, we have been successful in adopting sprinkler, smoke detector, and outside burning ordinances.

New Vision Clubhouse is a place for people with mental illnesses to reconnect with the community and develop a sense of belonging and self-worth. Here, members find a safe, supportive environment to learn new skills, gain confidence, and bring balance back into their lives. Here, people meet others, make friends, and learn to work together as a community. New members take beginning steps to reenter the workforce. Employment is the cornerstone of a healthy recovery.

Currently employers and positions are being sought. Job coaches from New Vision Clubhouse provide vocational counseling on site and work through any employer-employee issues assuring the job duties are performed at satisfactory or above standards. The potential employee's readiness is assessed prior to job matching. New transitional employment placements are being developed where members and employers are guaranteed the job gets done.

New Vision Clubhouse promotes the partnership model of psychiatric rehabilitation, where members play a critical role in the operation and governance of the clubhouse. Members and staff work together on tasks that benefit the clubhouse and members. Recovery from mental illness is enhanced through these experiences because it gives individuals a sense of accomplishment and competency, as well as being a valued member of the community.

New Vision Clubhouse is a voluntary program that offers choice, equality, and respect to all members. Focus is centered on strengths, abilities, and talents of members.

As July 2007 the clubhouse will be offering psychiatric rehabilitation services. The same quality of service members have enjoyed will continue. However, those recipients of Medical Assistance who require further rehabilitation supports will receive enhanced individualized care. Referrals for this service need to meet medical necessity criteria. This will be determined by New Vision staff based on regulations.

PPARxPA.org is a web site designed to help low-income, uninsured Pennsylvania residents get free or discounted brand-name medicines. State agencies and community organizations worked together with America's pharmaceutical companies to develop PPARxPA.org.

If you have a hard time paying for your medications, you may be eligible for help in paying for your prescriptions. We encourage you to go through the site to see if you can receive free or discounted medications. PPARxPA.org makes it very easy to find out if you, a loved one, or one of your patients qualify for assistance. First, select your point of entry to the application process by clicking on the Patient, Caregiver or Prescriber button on the page. Then follow the on-screen step-by-step directions. If you are eligible, you will receive an application that can be printed out and returned directly to the drug manufacturer for final approval after your doctor has approved and signed it.

DESCRIPTION OF SERVICES:

Friends of the Children's Room (FCR) is an organization of teen volunteers working with Pike County Public Library (PCPL) to improve children's programming and services available. The mission is to raise money and awareness to provide a friendly atmosphere at PCPL's children's rooms and to encourage reading among the youth of Pike County. The organization raises money and runs children's programs for the Pike County Public Library to benefit all patrons.

In the past, Friends of the Children's Room has purchased stuffed animals and books for the children's rooms, as well as planning and sponsoring programs to increase awareness of the summer reading programs at PCPL. Some of the original projects carried out by FCR include recarpeting and repainting the children's room at the Milford Branch of PCPL, as well as bringing children's singer Steven Courtney to the Pike County area multiple times for public performances.

In addition to work at the library, the teen volunteers periodically perform outreach programs and services throughout the community.

Please email us if you are a teen interested in volunteering, want information on upcoming meetings or events, or if you would like to support us as a student, family, or adult member or as a business sponsor.

Environmental Education For Children and Adults

The Pocono Environmental Education Center (PEEC), located within the Delaware Water Gap National Recreation Area, is a special place for students, teachers, families, scouts, birders, botanists, photographers, hikers, and everyone else who is interested in learning about the natural world in a beautiful and informal setting.

The study of nature and natural systems is our focus at PEEC, and our proximity to a quarter of a million acres of public lands, including the National Recreation Area and numerous state parks, forests, and game lands, offers a world of opportunities to explore.

PEEC's mission is to enhance environmental awareness, knowledge, and appreciation through hands-on experience in a natural outdoor classroom.

Weekend Institutes at PEEC

Whether you want to learn how to identify hawks, improve your photography techniques, learn the art of quilting, enjoy a nature weekend with your family, learn wilderness survival skills, go canoeing, or earn credit towards a graduate degree, PEEC's institutes offer something for everyone. Institutes include lectures, field trips, evening presentations, and social activities. PEEC's family nature weekends are available all year long and are very popular for families who want to spend quality time with each other and enjoy nature at the same time!

Accommodations for institute participants are dormitory style. We make every effort to honor rooming requests listed on the registration form (i.e. friends, family, or spouse). You may bring your own bedding, or you may rent a set of linens from PEEC, which includes two sheets, two towels, a washcloth, a pillow, a blanket, and a pillowcase.

Bringing a School Group or Scout Troop to PEEC

If you are looking for an educational and enjoyable outdoor experience for your group, PEEC is the place for you! PEEC's location, facilities, support services, and prices combine to make it an ideal center for school trips, scout trips, conferences, and retreats. Year round, PEEC can accommodate groups that range in size from 10 participants to 400. Tent platforms are also available seasonally for small groups with up to 30 individuals.

When designing your program, you can choose from a menu of over 30 classes to meet your group's needs, such as:

- Wildlife and Forest Study
- Aquatic Studies
- Canoeing
- Interpretive Day & Night Hikes

- Orienteering (Using Map & Compass)
- Astronomy
- Challenge & Adventure Courses
- Journaling and much more!

Contact PEEC's Program Planner at (570) 828-2319 for more information.

Special Events at PEEC

- Easter Orienteering Eggstravaganza!
- Earth Day Family Festival
- Golf Outing at Great Bear Golf & Country Club
- PEEC-A-Boo Halloween Trail
- Starry, Starry Night
- Yule Log Celebration

DESCRIPTION OF SERVICES:

Pegasus Child Advocacy Center is a private, non-profit organization dedicated to improving the lives of children affected by crime. Our objective is to improve the health, stability, and future of the rural communities of Northeastern Pennsylvania by addressing the needs of these children. This objective will be met through accomplishment of the following goals:

Victim Restoration – through compassionate, sensitive, state-of-the-art assessment and treatment of child victims of physical abuse, neglect, sexual abuse, and exposure to violence.

Youth Redemption – by enhancing recognition and treatment of children suffering traumatic experiences in their families and addressing the health and psychological needs of adolescents already involved in the juvenile justice system.

Community Advancement – by improving outcomes for children and families served by the CAC, thereby enhancing quality of life and promoting community stability in NEPA.

We provide a safe, child-friendly setting to conduct a coordinated, comprehensive assessment of child maltreatment. We also provide community education and awareness programs.

DESCRIPTION OF SERVICES:

The Pennsylvania Human Relations Commission (PHRC) is mandated to enforce the Commonwealth's laws that prohibit discrimination because of race, color, religion, ancestry, age (40 and above), sex, national origin, non-job related disability, known association with a disabled individual, possession of a diploma based on passing a general education development test, and familial status. The PHRC's jurisdiction covers employment, housing, and commercial real estate, public accommodations, education, refusal or willingness to participate in abortion procedures, and monitoring racial tension situations.

There are two main approaches utilized by the PHRC to seek compliance with the law: (1) the receipt, investigation, resolution, and litigation of formal complaints of discrimination filed by aggrieved persons or the Attorney General. The PHRC also initiates formal complaints of discrimination under appropriate conditions or circumstances; and, (2) the publication of regulations and guidelines, as well as the provision of technical assistance to organizations or individuals in order to generate voluntary compliance with the law.

DESCRIPTION OF SERVICES:

CHIP is short for the Children's Health Insurance Program - Pennsylvania's program to provide health insurance to uninsured children and teens. There are a lot of reasons kids might not have health insurance - maybe their parents lost a job, maybe their parents don't have health insurance at work or maybe it just costs too much. Whatever the reason, CHIP may be able to help.

CHIP works with private health insurance companies you know to make sure your children get their immunizations, doctor's visits, prescriptions, vision exams, check-ups at the dentist and more! For most families, all of this comes at no cost. That's right - great health insurance for free. You get the same health insurance card as everyone else, so no one needs to know you have CHIP. You might think that your children aren't eligible. A lot of parents are surprised to learn that CHIP can help their families.

Now, all uninsured children and teens up to age 19 have access to health insurance, regardless of family income. It's the same great program, now available to more families. It doesn't matter how much money your family makes. Many will get it free. Others, at low-cost. Don't assume that you earn too much to qualify. Every uninsured child and teen who is not eligible for Medical Assistance now has access to comprehensive health insurance. Many families will not have to pay for CHIP. Families with higher incomes will have low monthly premiums and co-pays for some services.

DESCRIPTION OF SERVICES:

Pike County Advanced Life Support, Inc. is a grass roots organization that brings Advanced Life Support in the form of Paramedics to Pike County. PIKE ALS was incorporated in October 2001 and received its 501(c)3 not-for-profit status in March 2002.

Memorial Weekend 2006, Pike Advanced Life Support, Inc. celebrated its 3rd anniversary. Since we started providing paramedic services, we have made a significant difference in the lives of many victims of medical emergencies.

Before we started running our paramedic service in Pike County, there was only Basic Life Support. That meant if you have any type of emergency that required Advanced Life Support – an asthma attack or heart attack for instance -Paramedics (Advanced Life Support Unit) should have been called to render immediate emergency treatment. Unfortunately, at that time, the closest Paramedic units to Pike County were outside of Pike County. In order for emergency treatment to be rendered, a paramedic had to be requested from neighboring counties whose emergency services were already pushed to capacity. Paramedic units are required within 10 minutes of the incident. If no paramedic unit is found, no advanced emergency medical treatment could be rendered, forcing the BLS unit to run with the patient to the closest hospital. The old procedure took away precious treatment time from the patient and hurt our neighboring counties by removing much needed resources out of their areas. When a Paramedic Unit from another area was called to Pike County, the Paramedic Unit was out of service for a minimum of 3 hours, leaving their primary response area uncovered and placing an undue hardship on the other county's residents.

Our Mission

The mission of Pike County Advanced Life Support, Inc. is to render emergency medical services to the general public and the community at large.

Our goal continues to include medical instruction to the community and working with other EMS, Fire and Rescue services to provide comprehensive coverage. We strive to provide timely medical intervention and patient information for hospital commands, evaluation and instruction. Through the utilization of both traditional and non-traditional programs (i.e.: substations, global positioning, acute business planning, etc.) Pike County Advanced Life Support, Inc. endeavors to help soothe the unpreventable distress experienced by our patients and their families.

A primary function of our existence is to insure that pre-hospital care does not deteriorate and insure that the public is provided with quality emergency medical care regardless of economic conditions.

Providing for our patient's well being is our most important concern.

DESCRIPTION OF SERVICES:

In order to fulfill Governor Rendell's vision for high quality early education for Pennsylvania's children, the Office of Child Development was created by the Department of Public Welfare. The Pennsylvania Early Learning Keys to Quality was then created to offer a unified access point to resources and is a quality improvement system in which all early learning programs and practitioners are encouraged and supported to improve child outcomes.

The Pennsylvania Early Learning Keys to Quality includes six Regional Keys and a state-level Pennsylvania Key located in Harrisburg. The Keys' work is guided by principles that focus on the development and coordination of local and regional resources, promoting quality programs, and obtaining positive outcomes for children.

The Regional Key provides funds to local communities to form Community Engagement for Early Care and Education Groups in each of Pennsylvania's 67 counties. The Early Care and Education Coalition of Pike County is part of the Northeast Regional Key and is the Pike County Community Engagement Group. We have been promoting quality early learning through events, activities, and programs locally since 2002.

As you explore the pages within our website, you will find updated information on quality early care, resources and services, professional development, and the Early Care and Education Initiative. Should you have any questions, please feel free to contact me.

DESCRIPTION OF SERVICES:

The Pike County Youth Coalition was established in December 2007 by a group of current and past Delaware Valley High School students. The Coalition is an entirely youth-led non-profit advocacy organization that exists to serve as a resource for young people and mobilize young people to improve the community. The organization is led by our Board of Directors and managed by Executive Officers, all between the ages of 16 and 24.

Membership is open to all Pike County residents under the age of 24, and dues are assessed at \$5 per year. Those over 24 years old or who live outside of the county can become a Friend of PCYC for a minimum annual contribution of \$10.

Our Mission: Comprised of and led by the youngest generation of students, workers, and voters, the Pike County Youth Coalition is committed to promoting youth interests and bettering our community. To these ends, the PCYC seeks to educate the community about youth issues, serve as a resource for young people, and encourage greater youth volunteerism and civic engagement.

DESCRIPTION OF SERVICES:

Mission of Pocono Commuter, Inc.:

To enhance the quality of life for commuters, their families, and their communities through communication, collaboration, and education.

To accomplish this mission we partner with other organizations or take the lead in facing issues affecting current conditions and future growth of the Poconos region including but not restricted to crime, environment, quality of life, community events, and economic growth and prosperity. We embrace all members of the community regardless of origin, race, religious belief, political ideals, or lifestyle. We will seek to help those in need and work together for the common goal of a better community for all. We firmly adhere to the principals of, "For the community, by the community," and our motto, "You've still got a friend in Pennsylvania." This is the commute we follow, a lengthy, bumpy ride to make the Poconos the best possible place to live for all of us during its growth and change from a rural area to a micropolitan region.

Goal of PoconoCommuter.com:

To provide a comprehensive and extensive resource of information about commuting from, living in, and visiting the Poconos and surrounding regions.

SAFE KIDS Coalition is an international organization that was started nearly two decades ago. The main goal of SAFE KIDS is to prevent unintentional injuries from happening to children of all ages. SAFE KIDS helps to raise awareness to all the hidden dangers a child can be subjected to.

The SAFE KIDS Coalition of Pike County organizes it's event to coincide with the 5 main areas of unintentional injuries to children; fall prevention, fire prevention, car seat safety, water safety, and water safety. We arrange several events throughout the year. Please let us know if you would like to host a safety event.

The SAFE KIDS Coalition of Pike County is currently looking for volunteers and/or members to help seek funding for the committee to hold local safety events such as a Car Seat Safety Training or a home safety course. SAFE Kids welcomes parents, grandparents, teachers, police officers, fire departments, EMT squads, and any one else who may wish to participate and attend our meetings. DESCRIPTION OF SERVICES:

The web site is part of Governor Rendell's comprehensive Stay Warm PA initiative to make sure Pennsylvania's most vulnerable citizens remain safe and warm this winter season.

This web site provides concerned Pennsylvanians with rising energy costs clear answers to frequently asked questions. The web site provides contact information for those who need help with their utility bills, furnace repairs, or weatherizing their home; gives easy-to-follow tips to reduce energy consumption at home; provides information and brochures in Spanish and English on the Low Income Home Energy Assistance Program (LIHEAP), as well as a direct link to an online application process for the program; contact information for Area Agencies on Aging for older Pennsylvanians; contact information for County Assistance Office; and information on how residents can help their community cope with high energy prices. The web site will be updated with new information throughout the winter season.

Governor Rendell's goal is to make sure all Pennsylvanians are warm and safe this winter and that they are prepared for the months to come.

DESCRIPTION OF SERVICES:

The Wayne Pike Adult Literacy Program is a volunteer, non-profit organization under the aegis of ProLiteracy America. It was founded in 1986 by two local volunteers whose vision for the future included a literate society in which every citizen could be a well-informed voter. Our goal is to help people improve their lives so that they might reach their fullest potential. We provide adult populations of both Wayne and Pike counties with reading, writing, and math skills. Tutoring is on a one-to-one basis with those who have no reading skills, as well as for adults with limited skills, people for whom English is their second language, and also those who wish to attain the equivalent of a high school diploma (GED). Our programs extend to both the Wayne and Pike County Jails. Our program covers over 1,200 square miles.

We are always looking for volunteers to train to become tutors. Please call for more information.
